### **DETAILED ACTION**

1. Claims 52-75 are pending. Claims 52-54, 57, 59-61, 66, 69, 71, and 72 have been amended in this communication filed 11/20/09 entered as Response After Non-Final Action, Request for Extension of Time, Substitute Specification, and New or Additional Drawings.
2. The Claim Objections for claims 52-54, 57, 59-61, 69, 71, and 72 have been overcome by Applicant's amendment to the claims and is hereby withdrawn.
3. The Objection to the Specification has been overcome by Applicant's filing of a substitute specification and the objection is hereby withdrawn.
4. The objection to the drawings has been overcome by Applicant's filing of corrected replacement drawings and is hereby withdrawn.
5. The 35 USC 112, First Paragraph Rejection has been overcome by Applicant's convincing arguments and discussion of where the limitations are found in Applicant's Specification and drawings and is hereby withdrawn.
6. The 35 USC 112, Second Paragraph Rejections have been overcome by Applicant's amendments to the claims and are hereby withdrawn.

Claims 52-75 are allowed and renumbered as claims 1-24.

The following is an examiner's statement of reasons for allowance: The closest prior art Freeman et al., Lee, and Truab et al. disclose a portfolio of loans involving an obligation of the corresponding borrower to make a payment to the lending institution but do not disclose a method for selecting a plurality of commercial loans from among a group of commercial loans to create a lone portfolio in which loans comprise at least

Art Unit: 3696

thirty percent (30%) of the portfolio market value, the portfolio outstanding principal balance or the portfolio commitment amount, are distressed loans which have a payment default or where payment default is considered likely.

Relevant Related Prior Art

(US 7,003,490) Keyes; (US 7,110,970) Dingman et al; (US 7,526,446) Aguais et al.; (US 7,447,652) Keyes et al.

Flick, Frederick Edward, "A Default Risk analysis of mortgage portfolio choice: a parameterization approach".

Thode, Stephen F. and Kish, Richard J., "A very different kind of mortgage product".

An extensive search was performed and no better prior art was found.

For these reasons claims 52 and 61 are deemed allowable over the prior art of record and claims 53-60 and 62-75 are allowed by dependency.

It appears that the instant invention is beyond the skill of one of ordinary art. Accordingly the invention would NOT have been obvious because one of ordinary skill could not have been expected to achieve it. NOR would they have been able to predict the results, and as such, they would have not capability of expecting success.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3696

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
